

Our Long-Term Care Planning offerings are an integral part of your comprehensive financial plan and can ensure **tax benefits, plan funding, guaranteed cost certainty, and more.**

LONG-TERM CARE SOLUTIONS INCLUDE

- Home Health Care
- Community Care
- Assisted Living Care
- Nursing Home Care
- Education
- Flexible Plan Design
- Social Security Planning
- Medicare Planning

In order to best protect yourself and your family, plan for Long-Term Care before care is needed.

Unlike traditional Long-Term Care Insurance, our solutions do away with “use it, or lose it” benefits. Statistically, 70% of Americans will require some form of Long-Term Care in retirement. While no one can predict if you will need care, we can help to create a suitable plan to protect your family and ensure multi-generational financial security, **whether you use the benefits or not.**

We understand that there isn't a one size fits all approach to funding Long-Term Care. Our plans are designed around your best interests and financial goals. Our Asset-Based solutions can create leverage using existing assets while still remaining liquid. We can help you decide if qualified money, life insurance cash value, annuities, monthly payments, or cash lump sums are most appropriate to fund your Long-Term Care needs.
